

Study to Better Understand the Impact and Experience of Living with PHTS

Are you or a family member living with **PTEN Hamartoma Tumor Syndrome (PHTS)**? If so, please join us for an opportunity to participate in a **60-minute telephone interview** to share your experience.

This research will give you the opportunity to describe your experiences living with PHTS (or living with a family member with PHTS) and the impact it has aspects of your day-to-day life. The results of this study will be used to increase awareness and understanding of the impact of PHTS among researchers

HOW TO PARTICIPATE

Qualified respondents will receive **£55** upon completing the discussion. If you're interested, please contact Diana Guzman at Diana.GuzmanHartmann@lightspeedresearch.com.

*PHTS is defined as having a diagnosed PTEN mutation. This may include people diagnosed with Cowden syndrome, Bannayan-Riley-Ruvalcaba syndrome, PTEN-related autism with macrocephaly or PTEN-related Proteus syndrome.
